Animals in the Ocean

There are many interesting animals living in the ocean. Starfish are usually red, but they can be lots of colours. They've got five arms and they can't move very fast. Sea horses are quite small and they've got a long tail and a long nose. They are very beautiful. Sea cows have got a fat body, two arms and a tail. They can't swim very fast. They don't eat meat, only vegetables.
